

IMMIGRATION FROM SOUTH EXPECTED

U. S. FARMERS ARE RECOGNIZING
SPLENDID OPPORTUNITIES
OFFERED BY WESTERN
CANADA.

St. Paul, Minn., Feb. 9, 1908.—Present indications are that the Canadian Northwest will draw an exceptionally heavy movement of new settlers from the United States this year. It should surpass the banner record for 1907. This is not only based on the fact that the Americans have come to realize generally that the Canadian Northwest offers splendid opportunities, but also because the railroads have awakened to the fact and are offering rates to the Canadian Northwest which are exceptionally favorable.

The lines which lead to St. Paul from the east and south are offering homeseekers' rates to the Canadian Northwest this year which are on a parity with those in existence to the southwest for a couple of seasons.

These rates can be obtained from any agent of the Canadian government, who will be pleased to give all information possible regarding those districts which offer the greatest inducements to settlers. The weather throughout Western Canada has been remarkably good this year. A telegram from the winter wheat belt of Southern Alberta dated at Cardston, Alberta, January 29th, says:

"This winter up to January 25 was nothing short of a marvel, in fact, it was the finest anyone can remember for twenty-five years though there have been others nearly as good. The days were fine, sunny and warm with light frosts at night. Overcoats and gloves, etc., were discarded by most people in the day time. There was so little frost in the ground that post holes could be dug without any trouble after the first inch was broken through. Winter wheat remained fresh and green although there has been no snow since the September storm. If there is an early spring, winter wheat should gain a great start."

Amongst the reports of the yield of last year the following extracts are taken:

H. Howe, of Magrath, Alta, writing on November, 1907, says: "I have 70 acres in crop, 50 acres of wheat and seven acres of oats. My average yield of oats was 35 bushels to the acre, and of wheat 45 bushels. The value to me was \$35 per acre."

J. F. Haycock, of Magrath, writes in November: "I had 65 acres in winter wheat, which went 60 bushels to the acre; oats averaged 80 bushels. I also had 12 tons of hay worth \$10 per ton. I got 600 bushels of potatoes from three acres of land; I got eight tons per acre from five acres of sugar beet."

J. F. Bradshaw, of Magrath, had 1,030 acres of winter wheat last year which averaged 39½ bushels to the acre. The value of his farm products per acre was: Wheat, \$31.60; oats, \$11.20 and barley, \$25.15.

Of course men are not vain, but just tell a man of 50 that he doesn't look a day over 30 and watch the effect.

PRIEST KILLED AT ALTAR

Father Heinrichs Shot Down While
Administering Sacrament in a
Denver Church.

ASSASSIN WAS AN ITALIAN ANARCHIST

Murderer Expresses No Regret for His
Dastardly Act and Talks Freely of
Himself to His Jailers—Came to
America Only Two Years Ago From
Sicily.

Denver, Col., Feb. 25.—Father Leo Heinrichs was shot and killed when administering the sacrament at early mass in St. Elizabeth's Catholic church, Eleventh and Curtis streets, this city at 6 o'clock Sunday morning, kneeling at the altar rail, between two women, Giuseppe Guarnaccio pressed the muzzle of a revolver against the body of the priest, after receiving from him the consecrated wafer, and shot the man of God through the heart. Exclaiming "My God, my God," Father Leo fell prone in front of the altar and died without uttering another word.

With an inarticulate scream of triumph which the communicants describe as the yell of a demon, the assassin sprang into the aisle and waving the smoking gun about his head dashed to the church door. For a moment the hundred or more people in the church were dazed. Then a woman shrieked and the congregation became panic stricken. Some women fainted and many became hysterical. Several men rushed to the aid of the priest and other started in pursuit of the murderer. Among the latter was Patrolman Daniel Cronin, who overtook the feeling Italian on the church steps. Guarnaccio attempted to shoot the policeman and was foiled and overpowered only after a desperate fight in which several men had come to the assistance of the officer.

Deputy Coroner Daniel Hayes took charge of Father Leo's body, which was removed to the city morgue. A single hole in the white communion robes of the priest showed that the bullet had gone straight to his heart. The bullets remaining in the revolver had been sharpened to a fine point.

In the 20 centuries of history of the Catholic church, members of its priesthood in this city declare there is no record of a tragedy to parallel that of the killing of Father Leo White administering the sacrament to Giuseppe Guarnaccio at the altar of St. Elizabeth's church Sunday morning. Never before has a servant of the church been summoned from the performance of his duties in so tragic and so dramatic a manner. This crime will stand out as one of the most fearful in criminal records of the world, and its perpetration will probably result in the elevating of Father Leo to the position of martyr and lead to his canonization as one of the saints of the church in whose service he fell while performing his duty.

Father Eusebius, senior assistant pastor of the St. Elizabeth church, received a telegram Sunday night from the father provincial in Patterson, N. J., instructing him to forward the body of Father Leo to that city for interment. Father Eusebius will accompany the body.

Funeral services will be held at St. Elizabeth's church at 10 o'clock Wednesday morning, when solemn requiem high mass will be celebrated, probably by Father Eusebius.

Father William O'Ryan, pastor of St. Leo's church, will deliver a eulogy and a sermon against anarchy and Socialism. The funeral services will be attended by 500 members of the Knights of Columbus and the entire body of the Knights of St. John and other Catholic orders.

It is a custom of the Franciscan order that no eulogies be preached for its deceased members, but on account of the tragic circumstances and the general effect in this case of the assassination upon the public, the rule will be set aside.

Giuseppe Guarnaccio, the murderer, talked freely in jail concerning himself and his act, for which he declared he had no regret. He said he was a native of Sicily, 56 years old. He became a socialist and anarchist at 35 years of age. He is a shoemaker by trade. He came to America two years ago and has since been teaching anarchy, working but little at his trade. He lived before coming to Denver in Patterson, N. J., in mill towns of Massachusetts and in Chicago. He came to Denver two weeks before Christmas.

The statements of Guarnaccio, that he is an anarchist is borne out by letters and pamphlets taken from him. Among his effects was a printed list of the murders of the world's rulers, from the assassination of Czar Paul of Russia in 1801, down to the recent killing of the King of Portugal, a few weeks ago. He also had many pages of anarchistic literature, in his own handwriting and on printed slips.

After examination of letters found in the room which the slayer of Father Leo had once occupied in this city, the police officials concluded Monday that he was Angelo Gabriele, a Sicilian anarchist.

A Gruesome Discovery.

Chicago, Feb. 25.—The arm of a man was Monday found wedged between the trucks of a mail car on the Santa Fe railroad when it arrived in this city. The car was part of mail train No. 8, which left Kansas City Sunday night. It is believed the man was killed at some point outside Chicago, while stealing a ride on the trucks.

Action of Animal Charcoal.

Why animal charcoal removes the color from colored liquids while wood charcoal has no effect has not been understood. A European chemist now finds that the action of the former is due to the presence of five and seven per cent. of nitrogen.

HOW DO THEY GET IN?

Physiological Problem That Nora Could Not Solve.

A Philadelphia physician tells of an amusing conversation between two Irish girls in domestic service who, while on the board walk at Atlantic City one day not long ago, were exchanging views as to their various physical ailments.

"It's a strange thing, ain't it, Norah," asked one of the girls, "how many new kinds of diseases people get these days. Only this morn'nin' I were readin' an advertisement of a new medicine. It said it were wonderful for a sluggish liver."

"Gwan!" exclaimed the other girl, scornfully. "Liver trouble ain't no new disease. Me own grandfather was havin' liver trouble whin I were not more'n tin years old."

"Maybe," was the laconic response, "But," added Norah, "what I want to know is: how do them slugs get inside the liver, anyhow?"—Illustrated Sunday Magazine.

Rather Neatly Put.

A Baltimore man had until recently a dinky in his employ—about as shiftless and worthless a dinky, says he, as ever he came across. One day the employer, his patience exhausted, called Sam into his office and told him to look for another job. "Will you give me a letter of recommendation?" asked Sam, piteously. Although he felt that he could not conscientiously comply with this request, the Baltimore man's heart was touched by the appeal. So he sat down to his desk to write a non-committal letter of character for the negro. His effort resulted as follows: "This man, Sam Harkins, has worked for me one week, and I am satisfied."

Dr. C. F. Simmons, San Antonio, Texas.
Dear Sir:—I purchased a farm and two lots in your Atascosa County ranch from Mr. Farrington, your agent at Alford, Texas.
Several of my friends became interested and wanted me to go and look at the ranch, and I have just returned from an investigation of it.
I spent two nights and one day on the ranch, and went over as much of it as we could while there, and I am entirely satisfied with my purchase. I found the land as good as recommended. It is the largest single body of good land, so far as I could see, with the least amount of waste land that I was ever on.
With best wishes, I am
Yours truly,
